When you select the software, you will get a window with a description of the software along with a link to view the product key and download the software. Examples:

The screenshot shows the details page for "Project Professional 2019". The page title is "Software" and it is in "PREVIEW" mode. The description states: "Project Professional 2019 enables you to deliver projects successfully by keeping your projects, resources, and teams organized and on track. Easily and efficiently plan projects, track status, and collaborate with others from virtually anywhere. You can use real-time communications and instant messaging enabled within your project plan via Skype for Business and also easily sync Project schedules and plans with Project Online and Project Server 2019. Skype for Business, Project Online, and Project Server 2019 are sold separately." The "Product Language" is English and the "System" is 64 bit. There is a "View Key" button and "Download" and "Cancel" buttons at the bottom.

The screenshot shows the details page for "Windows 10 Version 1809 (Updated Sept 2018)". The page title is "Software" and it is in "PREVIEW" mode. The description states: "For this multi-edition Consumer media, use a product key specific to the edition in the list you want to activate. From the desktop, select the Start button > Settings > Update & Security > Activation. Select Change product key and enter your product key. If the key is valid, you'll be asked to confirm the edition change, and Windows then performs it for you. Windows 10 Professional, version 1709 or newer, will need to be installed before using the Windows 10 Pro for Workstations product key to activate the edition. Both Windows 10 Professional and Windows 10 Pro for Workstations product keys will activate Windows 10 Professional, version 1709 or newer media." The "Product Language" is English and the "System" is 64 bit. There is a "View Key" button and "Download" and "Cancel" buttons at the bottom.
